

IC100
CRANES

2024

It's time to enter **International Cranes and Specialized Transport** magazine's annual IC100 (formerly IC50) listing which ranks the world's largest crane companies

EDITOR'S IC100 NOTES

- 1 All IC Index figures should be given as a maximum load moment rating in tonne-metres.
- 2 Tower cranes are not included in the IC Index. Please ensure that there are no figures for this equipment in your calculations – if you have tower cranes please request an IC Tower Index entry form.
- 3 Alternative lifting equipment is no longer included in the IC Index. Please ensure there are no figures for this equipment in your calculations or submissions.
- 4 Figures in the IC Index for crawler and wheeled mobile cranes should include an allowance for any super lift attachments that you own.
- 5 The IC Index should include all cranes that are in your fleet as of 6 May this year. Do not include cranes you have ordered but that have not yet been delivered.
- 6 To help illustrate the IC100 editorial in the magazine it would be great if you could include some photographs, perhaps showing your cranes in action, with a few details. They will be considered for publication.

The IC100 is the original industry ranking of the largest crane operating companies in the world and each year it grows in popularity. We've already received some enquiries for entries, so, if your company has not yet taken part, this is your chance to ensure it has a chance to take a position in the listing.

We calculate the IC100 figure by totalling the maximum load moment rating, in tonne-metres, of all wheeled mobile and lattice boom cranes in your fleet as at 6 May 2024.

Simply fill out the IC100 form over the page and submit it to us. If you send us a list of the cranes in your fleet, which would be helpful, please include the make, model, type, capacity and number of units for each model.

If you have any questions regarding the form, or require help representing tonne-metres, contact the editor, Alex Dahm, by phone: +44 (0)1892 786206 or, e-mail: alex.dahm@khl.com

PLEASE COMPLETE AND RETURN THE FORM BEFORE FRIDAY 6 MAY 2024

IC100 CRANES

2024

Please read the form and the notes on the previous page carefully. If you have any questions, do not hesitate to contact the team at **International Cranes and Specialized Transport**.

The listing must only include cranes you will actually have in your fleet on 6 May 2024. Please do not include cranes for which you have placed orders but not yet taken delivery.

Company name _____

Full address of company HQ _____

Name of senior contact _____

Job title of senior contact _____

e-mail address _____

Company web site _____

IC100 CRANES

Number of wheeled mobile cranes _____	Total tonne-metre rating _____
Number of crawler or lattice cranes _____	Total tonne-metre rating _____
Total IC Index* (tonne-metres) _____	
Make and model of largest crane _____	
Lifting capacity of largest crane in metric tonnes _____	
Average age, in years, of the equipment in your fleet _____	
Number of depots _____	Number of employees _____
Scope of operation <input type="checkbox"/> local <input type="checkbox"/> national <input type="checkbox"/> continental <input type="checkbox"/> worldwide _____	
Annual sales, in US\$, from crane-related activity _____	
<input type="checkbox"/> I confirm that the information shown above is correct.	
Signed: _____	
Name (please print) _____	Date _____
Job title _____	
e-mail address _____	

*IMPORTANT

To calculate your IC Index, please add together the maximum load moment ratings in tonne-metres of all the lattice boom cranes and wheeled mobile cranes in your equipment fleet to produce a total figure.
